DEBATE CONFINED TO LIBERAL SPEAKERS

Points of Order Raised by A. K.
McLean Not Sustained by
Speaker.

By Bulletin Leased Wire.

Montreal, April 14.—The debate on the bill to extend the long day kept up in the house until shortly after midnight, when the adjournment was moved by Fred Pardee, West Lambton, the chief Liberal who, the house rose.

A session of the evening sitting was the raising of a certain of points of order by A. K. McLean, Halton, for their object, a ruling which would have given the die-casters the right to be out of order. In both cases, however, the speaker ruled that the points were not in order, and the debate was adjourned.

The points raised were that proper notice had not been given of either the debate or the motion of adjournment of the previous question. The speaker decided that the necessary two days' notice had been given, and that no notice was the case, and that no notice was required in connection with the moving of the previous question.

The debate was then confined to the opposition members. Hon. Frank Oliver and Mr. Borden, Halton, occupied the time up to 12.30 a.m. In the evening, O. Turgeon, E. E. Devin, A. K. McLean, Hon. George P. Galt, and Mr. Pardee were in turn.

The speakers, one and all, declared that in introducing the new rules the government was striking a vital blow at the rights of the minority. All present agreed that the answer to the previous question by Hon. Mr. McLean before Sir Wilfrid Laurier was absurd, and that it was evident that no member of the government outside the house would do such a thing.

The Liberal speakers all argued that the framing of the house rules should be left to the members, and the progress of a heated debate. Hon. Frank Oliver declared that the rules go into effect at 12.30 a.m. and that he had received at the office of the attorney general a copy of the bill, and that no member of the government outside the house would be no protection for the people or for the minority.

Borden Ex-Cabinet Minister Strongly Opposed To Closure

By Bulletin Leased Wire.
Montreal, April 14.—In an interview given tonight to Le Devoir, Hon. F. A. Monk, ex-member of the Borden cabinet, said that he had favored the modification of the rules of the house that should accelerate its work.

He believed that a referendum is the only logical solution of the crisis, and that it would give a real value from an imperial point of view to our contribution, if such a contribution is voted. I would have voted against both the Borden and the Liberal bills, provided that the former law is proposed at a time which prevents serious discussion, and it appears to be a way of forcing a policy.

He said that the die-casters' proposal to impose the naval policy of the government cannot accept a proposal which, under the circumstances, is but a way to secure the adoption of a policy which they condemn.

More Political Arrests Reported

at Warner

Further arrests of Rogers' workers were made yesterday. From St. Paul came word that one of the chief workers for Lemuel Poat, one of the leaders of the Amherst, N. S., Conservatives, had been arrested. Le Poat is alleged to have been working in the Beaver River, riding for the Conservatives, and that he is now awaiting trial and according to the provincial police, they have good reason to believe he is guilty.

Mr. John Cuthie who has been arrested as a spy for the Conservatives, was detected that he came from Calgary and had resided there for the past four years.

At another arrest at St. Paul, it was said to have been in their power to have arrested on similar charges.

The word of another arrest at St. Paul came from Mr. John Cuthie, who had been received at the office of the attorney general, and that he had been arrested in every one of the provinces and the Conservatives who protested against the incorporation of the Robins Rogers workers in

But Meers, Ewing and Griesbach have a grievance, nevertheless. They have written to the government, and asked that the Bulletin be published to their satisfaction.

I beg to draw your attention to a condition of affairs which has arisen in the city of Edmonton, and which has been brought up in the various polling sub-divisions by the official enumerators. KILLS CHILDREN AND THEN SHOOTS HIMSELF

Terrible Death of Father Thought to Have Been Temporarily Insane. Mother Comes Home to Find Awful Tragedy Contrasting Her.

By Ruthie Leased Wire.

Flitchburg, Mass., April 14.—Ernest Moschner, aged 53, murdered his four children and then shot himself in the head, shooting at his home in Flitchburg street today. Continued ill health made the man temporarily insane, police believe. Moschner's wife, on returning from work, discovered the bodies of her children and husband, who was lying in a pool of blood. The murdered children are Elsie, aged 12; Myrtle, 11; Norman, 9, and Bert, 6. As soon as the other children were playing in the yard, when their father called them upstairs to his bedroom. The man, who made a mad dash for the door, was found lying on the mucky feet, the officers believed he lined the children up in front of the door.

While the children, half frightened by their father's behavior, were gazing at him, he drew a revolver and fired at his elder daughter, Elsie. The other children then broke from the room and ran out. The little girl, who had been crumpled lifeless on the floor of a closet in the front room of the same house.

Myrtle and Norman fled downstairs. There sprang sought vain refuge in a closet. The madman's father was too afraid for his own safety and left, closing the door behind him, and the blood-spattered club beside him gave mute evidence of his brutal handiwork.

The father then went upstairs again and shot himself.

VERMILION GIVES HEARTY WELCOME

(Continued From Page One.)

The Premier referred shortly to the record of the government in the way of advanced legislation. The progress of the campaign, he said, the means of making Vermilion a town of importance and the energies of Mr. MacKay in the campaign were constantly before the government. It would be, he one of the leading towns of the province, and the model of a new industrial district.

Touching on the matter of natural resources, the Premier said that, quite contrary to the statements made by the leader of the Opposition, the Liberal government had always stood for the provincial control of the natural resources, and had asked the people to vote for reform. The returning officer expressed his inability to decide from which side the voters had come. In the eight months since he had come to the better for Alberta to have.

to fight year for year for that control than to have them held out as a bribe pure and simple at each election and an unfair way of trying to get a government out of power, particularly a government which has been elected by the people with the opposition.

objected to the dole of the province, and the people of Alberta have a right to all the money they could get.
